

Resource 2 - See-Think- Wonder Activity

## Student questions

**"See:"** Look closely at the image of the building and write down what you see. Pay attention to details like colors, shapes, and patterns. Think about these questions:

- What does the building look like?
- What can you see outside the building?
- Are there any special designs on the building?
- What do you think it's made of?

**"Think:"** Share your thoughts about what the building might mean for the culture it comes from. Try to think about:

- What do you think people use the building for?
- How does it make you feel when you look at it?
- What assumption can you make about the people who designed and constructed the building?
- Why do you think this building is important for understanding Qatari culture?

**"Wonder:"** Express any questions or things you're curious about regarding the building. Some questions you might have:

- What more would you like to know about this building?
- How has this building developed, and what stories could it tell?
- Why is it essential for us to learn about this building and the culture it represents?
- How can understanding this building help people from different places understand each other better?
- What do you find interesting about the building?
- Are there any similar designs like this around the world?
- What is inside the building?
